

ELECTRIC RATES

GSD - GENERAL SERVICE DEMAND RATE SCHEDULE

I. Rate Designations

Rate No. 137, Rate No. 141

II. Applicability

Within the service limits of CRMU.

III. Monthly Rates

	Monthly Cost
Customer Charge (\$/mo.)	102.17
Transmission Capacity Charge (\$/kW/mo.)	5.90
Distribution Capacity Charge (\$/kW/mo.)	8.07
Power Supply Capacity Charge (\$/kWh)	0.0352
PCAc – Capacity (\$/kWh)	Calculated Quarterly
Power Supply Energy Charge (\$/kWh)	0.0161
PCAc – Energy (\$/kWh)	Calculated Quarterly

IV. Minimum Bill

Customer Charge, Transmission Capacity Charge, Distribution Capacity Charge

V. Special Terms and Provisions

- Customers who have their meter turned off and back on within a 12-month period will pay the minimum monthly charges, applicable to the customer, for the months while service was not being used. Customer must also maintain a 95% power factor.
- All demand readings (kW) will be through the 24th day of the month.

VI. Late Payment Charge

1½% on the delinquent balance after 20 days

VII. Sales Tax

Applicable sales tax additional

Applicability Detail

Any electric vehicle charger(s) with a peak nameplate charging capacity > 350 kW. Also, available to any commercial or light industrial enterprise, at one location, that, in the opinion of CRMU, has a demand ≥ 75 kW for 2 months of the year OR usage ≥ 25,000 kWh for six consecutive billing periods. The customer will be removed from General Service Demand rate class upon twelve consecutive months of demand ≤ 75 kW AND six consecutive months ≤ 25,000 kWh. The customer will also be billed based upon a demand ratchet of 65% of the highest demand reading in the past 36 billing periods – with the larger of the actual reading or ratchet being billed. The billing demand shall be the customer's greatest 15-minute demand in kilowatts (kW) incurred during the month for which the bill is rendered.

A commercial enterprise is defined as a property classified as commercial or intended for commercial use and/or providing goods/services for resale to the general public. A light industrial enterprise is defined as one making/creating (manufacturing) tangible goods for resale. Service under this rate schedule applies to multiple family dwellings (two or more units) served through one common meter or a single meter which provides service to at least one dwelling unit and building common areas such as hallway lights, laundry houses, service to separately metered residential-based structures where there is no dwelling unit (garages, barns, pumps, etc.). Depending on the service size and load requirements, this rate schedule may also be applied to small/medium warehouses, storage buildings/complexes, office buildings and office spaces, restaurants, convenience stores, assembly shops, laboratories, concrete mixing and manufacture, machine shops, churches, public/private schools, nursing homes, non-profit housing served through a single meter, etc.
