

# ELECTRIC RATES

# EV1 - EVOLVING INDUSTRY RATE SCHEDULE 1

## I. Rate Designations

TBD

## II. Applicability

Located within the service limits of CRMU and served at 69-kV.

## III. Monthly Rates

(1) Customer Charge (\$/mo.)	\$166.67
(2) SPP NITS Transmission Demand Charge (\$/kW/mo.)	\$6.14
(3) CTS 12-Month Peak Capacity Charge (\$/kW/mo.)	\$3.35
(4) System 12-Month Peak Capacity Charge (\$/kW/mo.)	\$1.12
(5) Accredited Capacity Charge (\$/kW/mo.)	\$3.00
(6) CTS Dispatch / O&M (\$/kWh)	\$0.00363
(7) Basin Dispatch (\$/kWh)	\$0.00049
(8) NIMECA Service Charge (\$/kWh)	\$0.00054
(9) System Energy Charge (\$/kWh)	\$0.00161
(10) SPP RT Energy Charge (\$/kWh)	Variable
(11) SPP Demand Response Resource Credits (\$)	Variable

## IV. Minimum Bill

Customer Charge, CTS 12-Month Peak Capacity Charge, System 12-Month Peak Capacity Charge

## V. Special Terms and Provisions

- Customers who have their meter turned off and back on within a 12-month period will pay the minimum monthly charges, applicable to the customer, for the months while service was not being used.
- Customer must maintain a 95% power factor.
- Customer will receive service at 69-kV (nominal voltage).
- Majority of load will be interruptible and subject to the requirements of SPP's Demand Response Program, SPP's Demand Response Resource Program and CRMU operational guidelines. Any penalties, fees, or costs issued by SPP to CRMU associated with noncompliance with these programs will be passed through to the customer.
- Load will be subject to SPP's Real Time Energy Market at the SPP Load Node: (WAUE\_BEPM\_NMCA\_CRMUBTC1).
- Load will be subject to upfront construction costs necessary to study, model, connect and meter load.
- Adequate credit requirements will be established based upon projected load.
- Electronic payment of bill required (ACH, etc.)
- Failure to pay outstanding balance by due date will result in immediate disconnection of service without notice.

## VI. Late Payment Charge

1½% on the delinquent balance after 10 days

## VII. Sales Tax

Applicable sales tax additional

### Applicability Detail

Available to any "Evolving Industry" enterprise (*i.e. server farms, cryptocurrency mining operations, etc.*), at one location, that, in the opinion of CRMU, has a demand load of 10,000 kW or more in any one month and receives service at 69-kV.
